I'm Alive
Neil Diamond

Talk a walk
We can hardly breathe the air
Look around
Its a hard life everywhere
People talk but they never really care
On the street theres a feeling of despair
Everyday theres a brand new baby born
Everyday theres a sun to keep you warm
When its alright
Yeah, its alright
Im alive
And I dont care much for words of doom
If its love you need
Well I got the room
Its a simple thing changed in me
When I found you
Im alive
Im alive
Every night on the streets of Hollywood
Pretty girls come to give you something good
Love for sale
Its a lonely town at night
Theraphy for a heart misunderstood
Look around theres a flower on every street
Look around and its growing at your feet
Everyday you can hear me say
That Im alive
I wanna take all that life has got to give
All I need is someone to share it with
I got love and love is all I really need to live
Im alive
Im alive
Everyday theres a brand new baby born
Everyway theres enough to keep you warm
Its ok
And Im glad to say
Im alive
And I dont care much for words of doom
If its love you got well Ive got the room

Its a simple thing that came to me when I found you
Im alive
Im alive
And I dont care much for words of doom
If its love you need well I got the room
Its a simple thing that came to me and I thank god
Im alive
I can take all that life has got to give
If Ive got someone to share it with
