It comes and goes
The feeling I've been feeling
When she comes it grows
I know it's just a feeling
But when she's around
I get the feeling
That I'm in some other world
Like some other girl
And when she calls her name
I don't know what it is
But it's just not the same
I don't know what's been missing
But I know it's gone
I feel it from
My head way down to my toes
It comes and goes

She still really cares
And I'm not being smart
I might of been imagining all the time
Who's to say the feeling
I feel in my heart
Won't turn out to be all in my mind
It hurts me

It comes and goes
It comes and goes

Oh baby
She still really cares
And I'm not being smart
I might of been imagining all the time
Who's to say the feeling
I feel in my heart
Won't turn out to be all in my mind

And yet when we're alone
She makes me feel like some old toy
That's been outgrown
As tho' I were just some old boy
She hardly known
I can't help feeling

How the feeling comes and goes
She comes and goes with someone new
