Title : Right by you

[Right by you, right by you
Want to do right by you
All night long

Right by you, right by you
Want to be right by you
All night long

Why don't you tell me
I need to hear you say it
Come on and tell me
Just wanna hear it told

Don't I do right by you
Baby, don't I do right by you
All night long

Come on and say it
I love to hear you whisper
Just say you love me
I got to hear it told

Don't I do right by you
Baby, don't I do right by you
All night long]
