Stargazer, you with your head in the heavens
You'll never get by walkin' that high off the ground
Hey, moon dreamer, I've been around and I've seen it
The higher you get the harder they let you down

You pay your dues, it seems forever
And if you're clever you may be in for a while
Then you're out of style

Hey, stargazer, probably think I'm crazy
And haven't you heard one single word I've said?
And I don't want to burst your bubble
But you got trouble

Don't you know the higher the top
The longer the drop
Hey, stargazer

Alright
Play that thing boys

Now, I don't want to burst your bubble
But you got trouble

Don't you know the higher the top
The longer the drop
Hey, stargazer

Look out sun
