Yeah let me show you the streetlife
Hey let me show you the finks, the punks, the judge,
the junk
And stay close to me for a while, for a while, for a while

Save all you got to get streetwise
Hey little boy you're a ?? stay out of harm's way
Right here with me for a while, for a while, for a while

Streetlife
Hell in the city
You've got to really watch your for bad
Streetlife
Say it ain't pretty
You've got to know your way around
Or somehow you might get hurt, get hurt, get hurt

Say let me show you the nightlife
Say let me show you the queens, the dudes, the glass,
the grooves
The folks who do ?? in the city bright

I'm gonna give you my warning
I'm gonna tell you the street's alive, the sound, the jive
Has just arrived, track it for size
For a while, for a while, for a while

Streetlife
Hell in the city
You've got to really watch out for that
Streetlife
Say it ain't pretty
You've got to know your way around
Or somehow you might get hurt, get hurt, get hurt.
