Neil Diamond
"The Power Of Two"

Was getting deeper

Into the night,

Knew you weren't coming home.

Nothing I was doing was right,

And now I've got

To face it alone.

The night getting darker.

Baby the darker it got,

Struggled with why and what,

But I could not fight

What I knew was true.

I was not gonna get

Through the night

Without the power of two...

Me and you.

Feeling like I'm out on a ledge,

Standing with my back to the wall.

Used to be I'd go straight ahead,

Now I'm going nowhere at all.

The night getting longer.

Baby the longer it went,

Just didn't make any sense.

Couldn't see, couldn't hear,

Didn't know what to do.

Was like I had no power at all

Without the power of two...

Me and you.

I never knew before

That two was more

Than one and one

Until that night.

Was nothing I could do

But think of how

I'm losing you, and

It shook me, it shocked me,

You locked me out there.

Looking for a place

I could hide,

Searching

For a corner to turn.

Left me here alone

For one night,

Showed me

I had something to learn.

I tried not to need you,

But I needed you anyway.

Wouldn't be easy to say,

But the way that I see it

I'm half without you,

And I'm not gonna make

Myself whole

Without the power of two...

Me and you.

Morning couldn't wait.

I knew

That it was getting late,

But I hung on.

I had no choice at all,

Was either walk away or crawl,

And

I'm pleading,

I'm bleeding.

I think I'm falling deeper

Into that hole,

Deeper that I thought I could get.

Like a bug that's stuck in a bowl

Climbing out's impossible, yet

He keeps trying harder,

Harder than he thought he could.

I finally understood.

I could hear, I could see,

And the truth came through.

We had ten times the power of one.

We had the power of two...

Me and you.

Was nothing we couldn't do,

Just me and you.

We had the power of two.
