

Neil Diamond "Yesterday's Song"

Visit "[Yesterday's Song](#)" on MotoLyrics.com

(Saying I love You now baby) Saying I love you
(Saying I love you now baby) Just Saying I love you
(Saying I love you now baby)
Yesterday's songs don't stay around long, not much
anymore
(yesterday's songs are gone)
Yesterday's words don't make themselves heard, Like
they did before
(yesterday's words are gone)
Baby yesterdays blues, maybe yesterday's news
But the truth always stays the same
And the good things will never change
Like saying I love you, (saying I love you now baby)
Just saying I love you, (saying I love you now baby)
Yesterday's songs don't seem to belong, There here
and there gone
(yesterday's songs are gone)
Yesterday's moves, don't stay in the grove, they keep
moving on
(yesterday's grooves are gone)
Baby yesterday's rhyme was for yesterday's time
And the future's not ours to see,
But there's somethings that will always be,
Like saying I love you (saying I love you now baby)
Saying I love you (saying I love you baby)
Baby yesterday's blues baby yesterday's new
But the truth always stays the same
And the good things will never change
Like saying I love you (saying I love you now baby)
Saying I love you (saying I love you now baby)
Saying I love you (saying I love you now baby)
Like saying I love you
