Busy Life

oooooo... ooeeeah.....

A busy life
Keeps a body busy
With so many same old things to do...

So why not stop
And take a good look around
Maybe you will find out something new to you...

Like how do the trees make noises
Lnd where does the wind come from
When and why do dragonflies say "hey, what's goin'
on?"

A busy life keeps a body busy
If you never take the time of day
To ask yourself is there something else
And maybe find the answer's just a stone throw away

A busy life, keeps a body busy...
