City of the Angels

Neil looking down his nose at me and my family  
An ordinary day in the City of the Angels  
The temperature downtown was 85 and rising  
On radio the Reverend Carwash  
Proclaimed he was against abortion  
Except in certain cases of rape  
Involving different ethnic groups  
While up and down the freeways  
Expensive flesh was cruisin'  
The clients of a plastic surgeon  
Who was weeping on an analyst's couch

Paradise lost in the City of the Angels  
Paradise lost pandemonium found (have a nice day!)  
Paradise lost in the City of the Angels  
Paradise lost pandemonium found  
In the City of the Angels

Somewhere down in the valley  
An innocent man was shot dead  
By cops on a routine patrol  
Looking for a rooftop sniper  
When they challenged him and asked his name  
They believed he was reaching for a gun  
But it was only a medical card  
That said he had a speech impediment  
And on t.v. Mister MetamorPHOsIs  
Said he could name that tune in three  
But Missus Tweedledum from Arkansas  
Beat him when she did it in one

Paradise lost in the City of the Angels  
Paradise lost pandemonium found (haaaave a niice  
daaaayyy!)  
Paradise lost in the City of the Angels  
Paradise lost pandemonium found  
In the City of the Angels
