Dig Your Bones

Do you know who I am?  
Can you hear me talkin'?  
I am always with you  
When you go out walkin'

I am the skeleton in your body  
And I'm here to put you straight  
I am the skeleton in your body  
Without me you'd be like a jello on a plate

So, dig your bones (dig your bones)  
Dig your bones (dig your bones)

Now, don't be too alarmed  
You're in no danger  
When all is said and done  
I am no stranger

I am the skeleton in your body  
And I'm here to put you straight  
I am the skeleton in your body  
Without me you'd be like a jello on a plate

So, dig your bones (dig your bones)  
Dig your bones (dig your bones)

Together we can run  
Hop and skip and jump things  
Use our fingers, what a team!  
We are really something!

I am the skeleton in your body  
And I'm so articulate  
I am the skeleton in your body  
Without me you'd be like a jello on a plate

So, dig your bones (dig your bones)  
Dig your bones (dig your bones)  
Dig your bones (dig your bones)

Dig your bones (dig your bones)

Okay, so what do you wanna do now?  
Let's try a cartwheel. Maybe a handstand.  
Okay, let's keep it simple, let's stand on tiptoe with our  
arms up as  
high as we can.  
Wiggle our fingers!  
Yeah, that's it.  
Ah, just a moment, maybe we oughta chill out.  
People are beginning to stare at us.  
Okay, we'll just walk down the street.  
(dig your bones)  
Just cool and slow.  
(dig your bones)  
That's it.  
(dig your bones)  
Don't draw attention to yourself.  
(dig your bones)  
(dig your bones)
