"Down That Road"

Visit "[Down That Road](#)" on MotoLyrics.com

It won't be long now before we turn this corner
And when we do we'll keep on down that road
We'll keep on going along the straight and narrow
There's no two ways about it down that road

Never mind the weather as long as we're together
It would take an avalanche to come between us
Though we may get weary, we'll stay bright and cheery
We'll keep smiling through

We'll take our chances
We'll cross each bridge we come to
We'll find our destination down that road

Though we may sometimes drag our footsteps
We shall stumble on some way to get us there
On some way to get us there

It won't be long now before we turn this corner
And when when do we'll keep on down that road
(keep on going, keep on going)
(keep on going, keep on going)

Keep on going (keep on going, keep on going)
down that road (keep on going, keep on going)
Keep on going (keep on going, keep on going)
down that road (keep on going, keep on going)
