Front Loader

It's so far out  
It's outta sight  
No heavy scene  
No gettin' uptight  
So, just stay loose, my brother  
I'll tell you where it's at  
You can all get it on at the local laundromat, yeah!

Front Loader, let me turn you on  
Front Loader, you and me just havin' fun  
Front Loader, my words I won't mince  
I just love your fully automated second rinse  
Ooooh, yeah, yeah!

If I could I'd do my laundry  
Every night of the week  
I guess that you could call me  
A laundry freak  
My clothes are all worn through  
But I just don't care  
'Cause when I get a heavy load  
I just got to share it with my

Front Loader, all bubbles and foam  
Front Loader, enamel and chrome  
Front Loader, my sheets will never tangle  
'Cause with your spin dry there's no need for a mangle

Front Loader, you know my need is urgent  
Front Loader, I got all my detergent  
Front Loader, sometimes I do despair  
You're the only one but me who sees my underwear
