Hush

Hush, hush, half the world is sleeping
Half the world away
People are in bed
Hush, hush, half the world is sleeping
Think of all the people
With dreams inside their heads

No one knows how long a dream is meant to last
Are they dreaming of the future
Or dreaming of the past?

So, hush, hush, half the world is sleeping
Half a world away
It's the middle of the night
Hush, hush, half the world is sleeping
Making so much noise is really impolite

Think of other people no matter what you do
And maybe tomorrow
They will think of you

So, hush, hush, half the world is sleeping
Half the world away
People are in bed
Hush, hush, half the world is sleeping
Think of all the people
With dreams inside their heads

Hush, hush, half the world is sleeping
Hush, hush, half the world is sleeping
Sleeping, sleeping
Sleeping, sleeping...
