"Lazy Days"

Now life can get you down
And make you wear a frown
When you're working your fingers to the bone
So listen close to me;
Here's my recipe
It's easy, you can do it on your own
Simply close your eyes
Imagine paradise
Now you can't go wrong
As you sing this little song
Lazy days will soon be here again
Cares and troubles toodle-oo
No need to hurry, no need to worry
Mr. Bluebird, how-do-you-do
Let the sunshine fill your heart with joy
Boys and girls come out to play
Don't sit and ponder, look over yonder
Here come those lazy days
