Morning Song

Open your eyes, it is morning
The birds have long since started their song
Open your eyes, it is morning
Morning has come to us all

Morning Song from IBoR

The world has turned, the world has turned
See everything is all around us
Open your eyes, it is morning
Morning has come to us all

Open your eyes, it is morning
The birds have long since started their song
Open your eyes, it is morning
Morning has come to us all
The world has turned, the world has turned
See everything is all around us
Open your eyes, it is morning
Morning has come to us all

Open your eyes, it is morning
Open your eyes, it is morning
Open your eyes, it is morning
Open your eyes, it is morning
Open your eyes, it is morning
Open your eyes, it is morning
Open your eyes it is morning
Open your eyes, it is morning
