My New School

They say school days are the happiest of your life
But I've never seen or been in so much strife
The teacher's like a bear with three sore heads
And if he had a gun we'd all be dead
it's...

My new school
I got no friends at all in
My new school
Everyone's so tall in
My new school
I really hate it here in my new school

I can't see why anyone should like it here
Even a dinosaur would live in fear
It's got all the charm of a video nasty
I've never been anywhere so ghastly

My new school
They burn you at the stake in
My new school
I've had all I can take from
My new school
I really hate it here in my new school

My new school
Can't spend another day in
My new school
I got to get away from
My new school
'Cause I really hate it here in my new school
