Singing a song is easy
Watchin' the world go by
If you were a song I'd sing you
But you're more than meets my eye
So lets sing a song together
Just like holding hands
Simple words and music
We can all understand

You can only love somebody
As much as you love yourself
So I'd like to wish you everything
That I would wish myself
Someone to care for you
Someone to fall in love
Someone to raise your voice to
Maybe someone up above
Someone to share your laughter
Someone to ease your pain
And if the song's worth singing
We'll sing it again and again

Singing a song is easy
When you're watchin the world go by
If you were a song I'd sing you
But you're more than meets my eye
So lets sing a song together
Just like holding hands
Simple words and music
We can all understand
Yes we can all understand

La la la la la la la...
