Boodle dum dee, boodle dum da
Isn't it great being a star?
Boodle dum dee, boodle dum da
Isn't it great being a star?

Well, I'm just the moon, and that's fine by me
As long as I've got that boodle dum dee

Boodle dum dee, boodle dum da
Isn't it great being a star?
Boodle dum dee, boodle dum da
Isn't it great being a star?

Every star is out tonight
All along my Milky Way
Oh, me, oh, my, it's such a sight
What a dazzling display

Hear that boodle dum dee
Hear that boodle dum da
Listen to the rhythm
The rhythm of the star

Boodle dum dee, boodle dum da
Isn't it great being a star?
Boodle dum dee, boodle dum da
Isn't it great being a star?

Some of us boodle dum dee
Some of us boodle dum da
But all of us agree
It's heavenly being a star

Boodle dum dee, boodle dum da

Isn't it great being a star?
Boodle dum dee, boodle dum da
Isn't it great being a star?

Well, I'm just a moon and that's fine by me
As long as I've got that boodle dum dee

Boodle dum dee, boodle dum da
Isn't it great being a star?
Boodle dum dee, boodle dum da
Isn't it great being a star?

Every star is shining bright
"Because we're made that way."
Every night is party night
"It's an endless holiday."

No one knows for sure
How it all began
It's just great to be a part
Of the vast eternal plan

It's so fine fine fine
Just to shine shine shine
It's such fun to be
In such glittering company

Boodle dum dee, boodle dum da
Isn't it great being a star?
Boodle dum dee, boodle dum da
Isn't it great being a star?

Boodle dum dee, boodle dum da
Isn't it great being a star?
Boodle dum dee, boodle dum da
Isn't it great being a star?

Boodle dum dee, boodle dum da
Isn't it great being a star?
