We're Going To Bring It On Home

Neil in Just Another Story from Innes Book of Records
If I had time to myself
Willingly I'd share it
If only I could spare it

We're going to bring it on home
We're going to bring it on home
We're going to bring it on home
We're going to bring it on home
We're going to bring it on home
Bring it, sing it, bring it home

Neil in Just Another Story from Innes Book of
Records
Had I met many special friends
I would not raise my voice
If I had the choice

We're going to bring it on home
We're going to bring it on home
We're going to bring it on home
We're going to bring it on home
We're going to bring it on home
Bring it, sing it, bring it home

What have we to talk about
Neil in Just Another Story from Innes Book of
Records
Apart from the weather?
What we do together?

We're going to bring it on home
We're going to bring it on home
We're going to bring it on home
We're going to bring it on home
We're going to bring it on home
Bring it, sing it, bring it home
