Once I thought I saw you in a crowded hazy bar
dancing through the lights from star to star
Far across the moonbeams I knew that's you who are
dancing through the lights from star to star

Refrain:

You are like a hurricane
there's calm in your eyes
and I'm getting blown away
There's somewhere safer where the feelings stay
I wanna love and just get blown away

I am just a dreamer and you are just a dream

you could have been anyone to me
From the moment you touched my lips
that perfect feeling
when time just slips away
between us and our foggy trips

Refrain

You are just a dreamer and I am just a dream
I could have been anyone to you
From the moment you touched my lips a perfect feeling
when time just slips away
between us and our foggy trips
