I'll Love You Forever Neil Young  
As I walk beside the sea on the golden sand  
I can feel you love for me as I hold your hand

Chorus

Oh I'm so happy I found your love  
And I will always thank the stars up above  
You're just the kind of girl that I wanted you to be  
And I'll thank the heavens above for sending you to  
me.

Chorus

Oh I'm so happy I found your love  
And I will always thank the stars up above  
I'll love you forever and idolise.  
The way you comb your hair and your laughing eyes  
The breeze from the tossing sea is reminding me  
That I'll feel the touch of your lips for eternity

Chorus

Oh I'm so happy I found your love  
And I will always thank the stars up above  
I'll love you forever and idolise.  
The way you comb your hair and your laughing eyes  
The breeze from the tossing sea is reminding me  
That I'll feel the touch of your lips for eternity

Chorus

Oh I'm so happy I found your love  
And I will always thank the stars up above
