Do you know her?

Can you see her in the distance

As she tumbles by?

Veteran of a race

that should be over

Can you hear her sigh?

With wings to fly

She rolls along

Doing it wrong.

Oh, I've loved her so long

Oh, I've loved her so long

There's a place that I know

We could go

get away for a while

I can bring her the peace

That she needs

Give her reason to smile.

Oh, I've loved her so long
