Shadows climb up the garden wall
Upon the green the first leaf falls
It's the prime of life and the king and queen
Step out into the sun, oh yeah

Are you feeling all right?
Not feeling too bad myself
Are you feeling all right my friend?

Footsteps run down the castle hall
To the rooms of the paper doll
It's the prime of life where the spirit grows
And the mirror shows both ways, oh yeah

Are you feeling all right
Not feeling too bad myself
Are you feeling all right, my friend?

When I first saw your face
It took my breath away
When I first saw your face

Shadows fly up the castle wall
Upon the green the first leaf falls
It's the prime of life and the king and queen
Step out into the sun, oh yeah

In the prime of life, prime of life, in the prime of life,
prime of life
In the prime of life, prime of life, in the prime of life,
prime of life
In the prime of life, prime of life

Are you feeling all right
Not feeling too bad myself
Are you feeling all right, my friend? Oh yeah
