Smoothing slightly like the silk  
penetrates beneath my skin  
makes me sweat like nothing else 'cause  
that's the way some people like it

I make love to the music  
'cos I'm in love with the music indeed

I'm a pure slave to the groove  
touch my senses, make me move and  
make me shake like no one else  
that's the way some people like it

I make love to the music  
'cos I'm in love with the music indeed  
Now now now

I make love to the music (to the music)  
'cos I'm in love with the music indeed  
ah ah...  
mmmmh  
I'm (to the music)

I close my eyes and let it in  
it takes me where I've never been and  
makes me sweat like nothing else  
that's the way some people like it

I make love to the music  
'cos I'm in love with the music indeed  
now now now

I make love to the music  
'cos I'm in love with the music indeed  
now now now
