When you say, it's not OK,
then I say that it is
When you say, come out to play,
then i say that I've been

When you say, the sky is grey
then I say that it's blue
When you say, it must be me
then I say that it's you

They say opposites attract
well i think that is wrong
I say opposites repel
the whole thing is a con

The further away you are
the happier I am
Although I do this to you
simply because I can

When I say these things to you
It's not a jest - I really mean it
If I don't stop, what will you do
there's no way out
We've already been here
already been here

They say opposites attract
well i think that is wrong
I say opposites repel
the whole thing is a con

The further away you are
the happier I am
Although I do this to you
simply because I can

We've already been here before.
