"Stand Up"

when people tell you to stop
and your back's against the wall
just stand up
stand up
just stand up
just stand....tall

when people tell you to go
it don't mean nothing at all
just stand up
just stand up
just stand up
just stand...tall, tall
just stand...tall, tall...tall

when disapointment sets in
don't just sit there any cry
just stand up
just stand up
just stand up
just stand up
just stand up
just stand up
stand up
just stand...tall.
