"Black Hordes"

Come the dark light
On our damned souls
Pray the goat lord
Rise a new empire.

The black dawn has arrived
Bring them, kill them
Rape the sluts and kill them all.
The black hordes want you dead
Crush them, smash them
Destroyers of your belief.

Burn all the temples
Destroy the holy signs
Legions spread terror
Black hordes ave arrived

The black dawn has arrived
Bring them, kill them
Rape the sluts and kill them all.
The black hordes want you dead
Crush them, smash them
Destroyers of your belief.

They want you as sheep
They read just a tale's book
It's all a mistake
Wake up open your minds.
