Got the molly comin, the bitches going, I'm getting it,
you already know it
You know I'm tryina fuck, it's 4 in the morning
If you're not then don't pick up, bitch it's 4 in the
morning
I'm in my rose, just met up with rose,
Louis vuiton toes with earring in her nose
She wanna be a model type, shawty strike a pose
Fine hair with some brains on her, shawty strike a blow
She think she ready for that fast life
I'ma show her what that fast like
I must have been a motherfucker in my past life
Cause I just fucked me 2 more mamacitas last night
I did it, I must admit that I get it, that hustle mode I'm in
it
That pussy game I be winning, got black mixed with
Caucasian
Hispanic maine or Asian,
I spend the night watching the cat fight
And in the morning we all blazing

Got the molly comin, the bitches going, I'm getting it,
you already know it
You know I'm tryina fuck, it's 4 in the morning
If you're not then don't pick up, bitch it's 4 in the
morning
Champagne, on ice, bad bitches, on fire
Her and all her friends wanna go, alright
We hit the club and go for rolling up, all night
It's me versus them and them bitches love me long
time
You got some pretty titties shawty, what you need a bra
for?
Be naked when I pull up, what you think I call for
She got 3 partners with her, bet I fucking all 4
Let them all ride the pole like a Volvo
We get a call at the midnight, I'm tryina see just what it
is like
I won't be long shawty sit tight, whippin in my
Lamborghini 100 through the red light

I'm dangerous, sorry lil mama that it came to this,
What I do to the pussy ain't no name for this
I really really sure gonna make you pay for this
That good thick shawtyâ€¦ what you getting from your
nigga ain't the same as this
You god damn wellâ€¦rose and the molly get the blame
for this
