Feat. Avery Storm

Its like no matter what I try to do I just can't make her  
happy  
See every other day is like she throwing new shit at me  
A constant pedi complain bout every single thing, hard  
to swagga maintain  
Shawty driving me insane  
In the beginning i'll admit if you say that i was on it  
And even if I felt you did me wrong girl i was coping  
I guess a nigga was hoping, thinking bout eloping  
See I just call it focus, but some might call it open  
It's like I'm compromising everything I stood for  
I'm breaking rules that every nigga in the hood knows  
One, weigh it yourself, two, never play yourself, three,  
it don't matter girl  
I throw em out the window casue for you

i bend over backwards, I'd do anything you say  
I'm here for you baby, don't have to worry about me

A little bit goes a long way  
If i gave you one, would you want two, If i gave you two  
Would you want three X 2

Somebody say relationships should be like fifty fifty  
How come I feel I'm giving mine but not receiving any  
Why must you make it so hard to play the part  
I put you in the light but yet you leave me in the dark  
And every time I think of you before, you go back  
And every time I think our train is straight, you jump  
track  
Oh who the fuck was that?  
You always doing that, let me turn that shit on you  
And let me see how you react

oooh yeah

It's like I'm compromising everything I stood for  
I'm breaking rules that every nigga in the hood knows  
One, weigh it yourself , two, never play yourself, three,

it don't matter girl  
I throw em out the window all for you

I bend over backwards, I'd do anything you say  
I'm here for you baby, don't have to worry about me

A litile bit â€¦ goes a long way  
If i gave you one, would you want two, If i gave you two  
Would you want three X 2

ooooh

If i gave an inch, would you want a foot  
If i gave that foot, would you want a yard  
If i gave that yard, would you want a mile  
If i gave that mile, would you want the town ?  
I wanna give you everything you want  
I wanna be the everything you need  
I'm right here for you baby girl  
Don't have you worry bout a thing

I bend over backwards, I'd do anything you say  
I'm here for you baby, don't have to worry about it

A litile bit goes a long way  
If i gave you one, would you want two, If i gave you two  
Would you want three X 2
