Yo
We cool right?
Nah I mean we go back
You know back
Before the records
And before you went to college
And became this person who you are.
Oh congratulations on that anyway too
But for a long time
There's been something I need to tell you

Listen

You see we been known eachother since
We were about this high.
Same elementary shared the same bus stop
Even as a younster I knew you were so fly
Even back then I knew you were the one
I watched grow I watched your transformation
Right through school to you current occupation
It took this long for me to man-up and have this
conversation,
But fuck it here it goes

I want you
To want me
Girl I need to know that
I can be your one and only
I need you
To need me
See you were my worst mistake girl
And that's why
It's hard to keep my cool when I see you with him
Cus I really wish that you were right here
Tell me what's it take to win just a piece of your heart
My only kryptonite is you
That's why anything you say I'll do
So let me stop for a minute
Take a second to say,
Girl you take my breath away, (away)
Girl you take my breath away
You take my breath away

You take my breath away

They say one man's trash is the next man's treasure
Well one finds pain the next might find pleasure
I don't pay attention to them hater's now or never
I don't give a damn
Who was before me
All that matters is you're with me now
All I need to know is that you're down
Man there's something special about round away
ladies
Ride Or Die baby
Girl

I want you
To want me
Girl I need to know that
I can be your one and only
I need you
To need me
See you were my worst mistake girl
And that's why
It's hard to keep my cool when I see you with him
Cus I really wish that you were right here
Tell me what's it take to win just a piece of your heart
My only kryptonite is you
That's why anything you say I'll do
So let me stop for a minute
Take a second to say,
Girl you take my breath away, (away)
Girl you take my breath away
You take my breath away
You take my breath away

It's like a darn to see you with this guy,
Thinkin it's myself why the hell she with that guy,
Why she ain't by my side,
We would be so fly,
We would live that life,
The life we used to dream, talked back then,
Back when I used to pull my BMX up along to your
swing,
See here we are again,
Funny how faith brought my phantom up along side of
your Benz
And still...

I want you (I want you)
To want me (To want me)
Girl I need to know that
I can be your one and only

I need you (I need you)
To need me (To need me)
See you were my worst mistake girl
And that's why
It's hard to keep my cool when I see you with him
Cus I really wish that you were right here
Tell me what's it take to win just a piece of your heart
My only kryptonite is you
That's why anything you say I'll do
So let me stop for a minute
Take a second to say,
Girl you take my breath away, (away)
Girl you take my breath away
You take my breath away
You take my breath away

Yeah so
I mean,
Like I said
You know we've been known each other for along time,
You've seen me go through
I seen you go to
We're in here know and
I just that I tell you that,
So you got my numbers,
You got my e-mail,
You know everything,
So I guess the next message
I get from you and let me know
What you think about this right here.
Aight
Aight... get home safe
