Oh woo oh
(You so fly lady)

You look so fly, so cool
Tell me girl can I talk to you
I'm only in town for one night
Let me know if you're down to ride

So fly, so cool
Tell me girl can I talk to you
I'm only in town for one night
Let me know if you're down to ride

Yeah, you ready to ride, baby?
If you think you're lonely now just wait until tonight, girl
I know I've been on the road and away from home
But I've been feelin' for you, dreamin' of you

And what I'm gonna do when I have you alone
You heard the message on your cell phone
Me sayin', "Daddy's home"
I'm about to put it down

Got you runnin' around
Half-naked around the house
And this isn't just fast sex
We makin' love until we both climax

I know you miss me
I can tell by the way you kiss me
There's no other place you rather be
But here in ecstasy with me

I'm that someone who's gonna love you right
Even if I'm home for just one night
You know it's alright
It's me and you, Zig-Zag and Mary Jane
Your loving's got me never wanting to leave again

You look so fly, so cool
Tell me girl can I talk to you
I'm only in town for one night

Let me know if you're down to ride

So fly, so cool
Tell me girl can I talk to you
I'm only in town for one night
Let me know if you're down to ride

The way you move that body
(Uh)
Twist those hips
(Yeah)
I just want to know can I tell you this

That you're the tyra girl I wanna roll with tonight
I'm at the Double Tree
I got an early flight but nothin'
Could be better than to kick it with you
I'm talking about more than a one-night rendezvous

You can call it what you want, but I'ma treat you right
It's like a fantasy, girl close your eyes
Take my time when I touch that body
Get you so hot you wanna talk naughty
Ooh suga suga how'd you get so fly?

I'm down for yours if you're down for mine
(Uh)
Mamacita, chula, sexy chica meet me in the room, I'm
in 602
'Cuz all I wanna do is have a party for two
Baby girl tonight it's me and you
(Woo)

The way you're movin' that body and twistin' those hips
Workin those eyes and lickin those lips, oh my
(Oh my baby)
So fly
(You're so fly lady)

The way you're movin' that body and twistin' those hips
Workin those eyes and lickin those lips, oh my
(Oh my baby)
So fly
(You're so fly lady)

T-t-tell me something, girl, something girl
T-t-tell me something, girl, you down to make it hot?
It's that freaky deaky rider sexin' you non-stop

Love the way I touch you, I'm breakin' you down
You say you shouldn't do this, you still goin' down

Now we on the floor
You moan and groan, holdin' me so tight
Tellin me you want more

I see you feelin' freaky we're on another level
Got me serving you now on a dinner table
How do you want it, how does it feel?
The way you lick your lips girl you know I'm diggin' this

Your body keeps callin', no temperatures fallin'
The heat keeps risin', got you mesmerizin'
Tonight's the night we'll remember forever
If I'm eva in your spot I know you're down for whatever

You look so fly, so cool
Tell me girl can I talk to you
I'm only in town for one night
Let me know if you're down to ride

So fly, so cool
Tell me girl can I talk to you
I'm only in town for one night
Let me know if you're down to ride
