I left my heart in San Francisco with some club kids on
a crowded street
somewhere
The sky was red and he said,
"would you like to come be a part of my North
American Dream?"
I could try to chase life down, down the street and I'd
find the separation
of fact and fiction

I'm tryin' a find a way
I'm tryin' a find a right
And if I budge I just might
I'm tryin' a find a way
I'm tryin' a find a right
And if I budge I just might

I left my conscience somewhere with my rythm
I heard about it from the mouth of a man
He was hopping some trains and combing the land
Looking for a lover (kiss) planted in the east
Trying to run from the dreaded fist beast
And it lies, it lies in the picket fence call
It was my own paradise with my own private corridor

I'm tryin' a find a way
I'm tryin' a find a right
And if I budge I just might
I'm tryin' a find a way
I'm tryin' a find a right
And if I budge I just might

So I'm dancing to a new beat and it came to me in bed
My veins became a strain of light that I let to flow
instead
And a wish came to me like Peter Pan at my window
and said
Evolve your destiny child and you'll never walk alone-
no
You'll never walk alone, but
Travel to the land of surrender till' you can't cry no

more
Till you can't, till you can't
And you'll never walk alone

You'll nev, you'll nev, you'll never walk alone, you'll nev,
you'll nev, you'll never walk alone..
... never walk, never walk alone alone alone-yeah/ all
this inspiration is
passing me by/all I can do is chill when I really wanna
fly/and this
pollution do nothing but dirty up my mind/faster than
forever in the blink
of an eye/to see past my lethargy is hard I feign/the
beauty of my youth is
gone but the chemicals remain

I'm tryin' a find a way
I'm tryin' a find a right
And if I budge I just might
I'm tryin' a find a way
I'm tryin' a find a right
And if I budge I just might

I travel to this land of surrender but I see it's all over
me, over and over
again...and I try and I try and I try...an angel on my left
side and a devil
on my right..and they fight and they fight and they
fight..they're fighting,
they're fighting, they're fighting for my
attention...hello? You have my
attention...Do I have your attention...Can I have your
attention
please?...please, you've made such such an impression
on me
