Yo, turn the mic up
I haven't been in there in 5 years
And keep the lights on
We got company

Yeah, yeah, okay
I don't think they gon' really understand this one right
herre man
Not at all, not at all
We got a special guest in the house tonight
Who is that? But first

You see though I ain't the one that'll pay for your phone
The way you lookin' ma, I might just pay for your home
Cut through the ceremony, give you the throne
Put you somewhere you know birds can't come

I don't wanna be your man boo, I wanna be the one
To get inside your brain and give you my last name
I swurr I can change, I put that on er'rything
You ain't happy while you wit me boo, then gimme the
blame

Different color ring for erryday of the week
You can go on and set it up for me 'n' pops to meet
'Cuz I'ma ask him for you hand and show him that I'm a
man
What if he say that you can't, I'ma tell him my plans
because

Me and you was meant to be as one now
Me and you we gon' have sum fun now
Me and you from sun up to sun down
Me and you that's one thing I know for sure

I still love you
I still want you
I still need you
(Ladies and gentlemen)
In my life, in my
(Mister)

I still
(This gon' be real fun)
I love you
(You might know him as)
I want you
(I think I'ma let him introduce yourself)
In my life

I'm that one cat made to win
I heard you're here to change the game again
Mason Betha heaven sent
No game can change what you represent

You can't call me with no money that I never spent
They don't make planes no more that go where I never
went
I ain't gotta keep sinning to keep spinnin'
I prefer pink ice with peach linen

I teach these women what they in the shirt for
Search yours, find out you really worth more
I change your esteem, you was made for a king
Do he really love you? He ain't gave you a ring

I erase the hate that made you mean
Got you 20 lookin' 50 and you only 18
Then ya slate clean it's not a fake dream
Bye bye hatas we off for hiatus, come on

I still love you
I still want you
I still need you
In my life, in my

I still
I love you
I want you
(They gon' be mad at this one lil derryty)
In my life

Me and you was meant to be as one now
Me and you we gon' have sum fun now
Me and you from sun up to sun down
Me and you that's one thing I know for sure

So girl, tell me is there something I can do to see you
Maybe you can make a little time, I'll meet you
I just gotta tell you what I'm goin' through
Gotta let you know I still love you

There's so many things I wanna share wit you

So much is there to make me miss you
For what it's worth girl, I swear it's true
Gotta let you know, I still love you

I still love you
I still want you
(I still want you)
I still need you
In my life, in my

I still
I love you
I want you
In my life

I still love you
I still want you
I still need you
In my life, in my
(It's fo' reel)

I still
I love you
I want you
(Ain't no way we should be on the same track lil derty)
In my life
