These nights are longer  
But we press on through the flood  
The sea is calling  
But to go, nobody should  
Nobody should  
Nobody should

But have we all forgotten what light from our eyes can  
do  
So in the end, the truth will descend  
On your head like a rain from above

Why are you waiting  
Why are you waiting  
The storm has been lifted  
Look out to the mountain  
Look out to the mountain  
The whole thing falls away

But have we all forgotten what light from our eyes can  
do  
So in the end, the truth will descend  
On your head like a rain from above

Just fight with your bare hands  
It's all coming to an end  
The suffering you will endure  
Will surely kick your spirit in  
Will surely kick your spirit in  
I was offered romance at the altar  
And now we see I'm flying away  
All the things that the world has told me  
I lend a deaf ear  
We all feel the same

But have we all forgotten what light from our eyes can  
do  
So in the end, the truth will descend  
On your head like a rain from above

But have we all forgotten what light from our eyes can

do  
So in the end, the truth will descend  
On your head like a rain from above
