I wanna leave you but I just can't leave you
I keep coming back for little more of your love
I wanna go away but honey, I just can't stay
I keep coming back for little more of your love

And I can't understand when I try
As hard as anyone can
Each night I dream I wake up and scream
Oh baby, that I love you woman I love you

Oh baby, I realize I treat you wrong
But I'm so sorry let me come back were I belong
You see I'm your fool I lost my cool
Oh baby, that I love you woman I love you and I
wouldn't lie

Oh, but I lay down and die
Oh baby, that I love you woman
Oh baby, that I love you woman
That I love you woman I love you
