I've been waiting for you, you're lonely
I've been watching you control me

I'm here with you, you know
No need to hide
Lay your head in mine
Just close your eyes

Welcome, so you came
You're here with me again
Out of nowhere
You even know my name

But it will never ever be the same
But I'm always with you
When you fall asleep

Show me, show me what it is
What you're hiding from
I know you, know who you are
By the feeling in your heart

When you awaken your eyes open
I blind you like the sun
You only feel, only feel me
Tear you apart

Tune your mind, reach inside, peel away
Come on, show me
Touch, taste, feel
Touch, taste, feel, show me
Saturation, saturation

Only false dreams awaken
Buried in your heart
Your only scream
Your only fear you were dead from the start

Tune your mind, reach inside, peel away
Come on, show me
Touch, taste, feel

Touch, taste, feel

You're lost
You're lost for life
So lost
Your cunting life

The look of pain
No color pain
The color of your anger
Your lust for life

Enter my realm
Let it all escape
To reach inside
Escape, unwind

My creator
Man maker
