Revenge  
We  
Fathers of hate  
Irony and faith  
Forged in concrete  
Unbound in pain  
Made to suffer  
Untamed insane  
We seek revenge as we break out

So rip out my black heart  
So be it, vengeance is mine  
Rip out my black heart

We seek revenge as we break out  
No unmarked body on our path  
We race with speed unknown to man  
And praise ourselves as saints of wrath

Discover the smashing taste of blood  
Another human life is lost  
Astounding signals mark our feast  
It's supernatural and all within reach

Revenge
