You claimed to be a frustrated pig  
True ally of the thought  
Not the one we now should fear  
Guard is from what's wrong

Oh, you treasure what's wellknown  
Are we not to judge  
Being here to feed the claims  
It seems accepted that you must

Take it, do not dare to leave it  
In circles feeding what's frustrated  
No, they shall never get their rest  
All of them not proven not to be

Harmless clean pure and sober  
Trust love hope it's bright  
Show, yes, show your meaning  
This homemade god brings the light

Death to the harmless  
For some truth you don't have the nerve

Death to the harmless  
Are we not to judge

Antibehaviour is salvation
