Take no gun and run away  
If that will make you strong  
But it makes you weaker  
And proves that you're wrong

The mind's for you a tree  
Where is the ground for it  
You turn to me the other cheek  
But I don't believe in that bullshit

Warzone  
Take it as a man  
Warzone  
Take your final stand

Pain is a reward  
Death a gift for the weak  
Loyalty aborted  
The bullet for the hypocrite

Warzone  
Try me if you can  
Warzone  
But this takes more than just being a man
