Ima star in the making
Stay on my grind, ima make it
Aiming for that top spot
Aint no hoe that can take it
All the time ima shine
With the crown on my head
So gone and envy me, straight envy me envy [2x's]

So gone and envy (desire a person like this)
Envy envy me (be aware of a person like this)
I always stay with jealousy
Cuz hoes stay envying me

[Verse 1]

My presence stays with elegance
Sophisticated with a twist
Hating haters on my jock
When I walk down the block with a twist
Don't ever get me wrong
Gone be like a ti-tick tick bomb
Bombared you with my fists
You already know I gone miss
Cuz my presence demands respect
Believe my swag don't ever lack
A youngin' in this game got more props than you ever
met
Born to be arrogant like no other
Met no chicks that's above
Keeping my eyes on the prize
Let nothing turn me around
They all gave me a crown
I walk around with it proud
I stay flashy but classy
Made all the hoes back down

Ima star in the making
Stay on my grind, ima make it
Aiming for that top spot
Aint no hoe that can take it
All the time ima shine
With the crown on my head
So gone and envy me, straight envy me envy [2x's]

So gone and envy (desire a person like this)
Envy envy me (be aware of a person like this)
I always stay with jealousy
Cuz hoes stay envying me

[Verse 2]

All you see is reality
It's hard to take me from a fantasy
Looking soft like cotton candy
But harder than your average diamond
That stays shinning like a star
Irrelevant hoes always envy me
They all mad they can't handle me
Taking they men away
What you thing ima georgia peach
Pleasing haters is my speacialty
On my grind aint no stopping me
Causing crucial brusing when I hit the scene
A swagger that's amazing
Fitting the description oh so mean
Staying high quality from head to toe
If luxy was an imdulgence I go to hell for murdering
hoes
Gleaming streaming flossy ways
I go by Nene and m here to stay
And that a bet

Ima star in the making
Stay on my grind, ima make it
Aiming for that top spot
Aint no hoe that can take it
All the time ima shine
With the crown on my head
So gone and envy me, straight envy me envy [2x's]

So gone and envy (desire a person like this)
Envy envy me (be aware of a person like this)
I always stay with jealousy
Cuz hoes stay envying me
