I have come at night coated in darkness  
Eyes of mine blackness possessing no life  
Vermin creep in veins of mine  
Blood of mine black sea!  
Asar un-nefer  
Asar un-nefer  
Names of mine thousands!  
Millions of them there are! each one true  
And each one nameless on everyone's lips!  
Let there be word!  
Sotou speak!  
Ad-on-a-I scream!  
Feet of mine crush skulls  
Wrapped in flame I stride into kingdom mine!  
I bring nothing but demise!  
I preach not more than bad news!  
Sing!  
Angelos ton theon!

"... from the deep abysses he was awakened  
By the filthy rituals invoked  
Summoned thousand times at night  
Brought from dream to the light...  
Deity of fear hate and disgust  
The one that we all bowing shall trust..."
