I need another way  
To find adventure  
I need another way  
To search for pleasure.

And all numbers lined up  
All the needs were dissolved  
All the habits resolved  
And I know

I got coordinates set  
I got coordinates set  
I got coordinates set  
And I know

They don't trust me! no!  
They don't trust me! no!  
They don't trust me! no!  
They'll trust me!

Do do do do do, hey hey!  
Do do do do do, hey hey!

Turns out  
I lost direction  
Fell out  
Lost connection

Looking another cover or catalyst  
Misled by a neon compass

Really gotta get a hold of my map  
Really gotta get a hold of my map  
Really gotta get a hold of my map
