Tomorrow waits for today
And everything's ok
This sorrow comes with the pain
I'll find another way to make this feel just like a place
That I can always run to

(Chorus)

Lost and So Far Down
Was it everything you need
Not what I've lost is what you've found
And it's such a mess now

This problem won't go away
No matter what I say
Tomorrow is not yesterday
This is what you left behind
To try and find
That peace of mind
That brings you to that place you run to
And hide away
Where I can't find you

(Chorus)

Lost and So Far Down
Was it everything you need
Not what I've lost is what you've found
And it's all without me
Lost and So Far Down
Is it what you'd thought it'd be
You're on your throne without your crown
And you're now without your queen

(Bridge)

Lost and So Far Down, was it everything you need?
And it's such a mess now
