Too many times I've tried to answer  
The voices in my head  
Too many nights I see that anger  
All of the things I said

Can you believe  
You're building a fire  
It's one that keeps me cold

Take me down  
And leave me lonely  
Who's left to watch over me  
Now you're gone  
My light is fading  
You brought on the darkness in me

In me

Sometimes I feel the words you whisper  
Why can't you hear me scream  
To make believe that it doesn't matter  
Is harder than it seems

Can you believe  
You're building a fire  
It's one that keeps me cold

Oh, the sanctity  
That circles me, broken  
My soul's been fighting solemnly

Take me down  
And leave me lonely  
Who's left to watch over me  
Now you're gone  
My light is fading  
You brought on the darkness in me

Take me down  
And leave me lonely  
Who's left to watch over me  
Now you're gone

My light is fading  
You brought on the darkness in me

Take me down  
And leave me lonely  
Who's left to watch over me  
Now you're gone  
My light is fading  
You brought on the darkness in me

In me
