The forest of Obscurity
Robed in the night,
Enlightened by decrescent
As torn insides reveal
Jaws are dripping blood
Falling like black tears
Of thee being so pure.

Denying truth
Reached infinity.
Groping in the pitch-dark forest

The snow has yet fallen
Covered the forsaken lands
In purity of nature's might
The sacrifice of human flesh
Is lying beneath contempt to rot.

Beneath all the surface
The mighty beings of death
Have faced your own decaded fear
Upon all you have made them
The fear of thy own destiny awaits

Denying truth
Reached infinity.
Groping in the pitch-dark forest

Tears shall be my water
And blood will be my wine

Risen shall the mists be
From the earth I shall arise
I who have torn the existence
I seed of the new generations.

Beneath all the surface
The mighty beings of death
Have faced your own decaded fear
Upon all you have made them
The fear of thy own destiny awaits

Forever I am here standing
Almighty begining ending it's force
I have left my legacy with pride
Forever shown the one and only way
