Sad eyes,
Fake smile behind all the fun,
You told me you're sorry for what you've done.
Take a good look,
See the difference of what I've become,
There's one thing to say, hey,
I love life,
You hate it,
That's the thing that makes us different.
I trust you, you betray me,
How can you call yourself a friend.
I realize it's over,
Only wish you wouldn't be this way,
There's one thing to say, hey
I don't wanna be you,
Don't wanna be like you
I don't wanna be you,
Don't wanna be like you.
Little teardrops they're fallinf from your eyes,
I apologize but it's all your own fault.
