Water the plant in the corner  
but not too much  
it needs the light it needs  
the water and your touch  
take care of me stay close  
to me please keep me here  
I need your love I need  
your heart but I don't need you  
Holding on to you, I hold on to you  
stay around me 'cos  
I want to be with you  
but not the way you do  
we were like others but  
it's not what we should do  
and now your holding on to this  
and I'm too weak to leave  
Cut the leaves plant new  
seeds but it still won't grow  
It needs your hands it needs  
a chance it needs your all  
take care of me sleep beside  
me please keep me here  
I need your love I need  
your touch I need too much  
Holding on to you, I hold on to you  
stay around me 'cos  
I want to be with you  
but not the way you do  
we were like others bu  
it's not what we should do  
and now your holding on to this  
and I'm too weak to leave
