Try to get up, go at it again
never gained a thing letting others win
Fear is nothing but self defeat
might as well just lie down in the street

That's all I am
That's all I am
That's all I am
That's what I am

People standing at an exit sign
thinking that all others must be blind
Truth is that we understand
that they're just a man without a plan
That's all I am
That's all I am
That's all I am
That's what I am

Lazy mother lie around
point at me, say how lucky I am
Truth is that I understand
that you're just a man without a plan

That's all I am
That's all I am
That's all I am
That's what I am
