You're going to wanna hear this
Simple thoughts from my head
Little like a box of pictures
Not what they are, just what you said

Take a look, don't deceive me
Our time together drained the life from me
Only thing I ask of you now
Take a step and push away

You step on me
You take from me
You lean on me
Why don't you push away?

You step on me
You take from me
You lean on me
Why don't you push away?

I hope you got what you wanted
Cost me everything I am
Your stare burns right through me
Timelessness was your demand

Take a look, don't deceive me
Our time together drained the life from me
Only thing I ask of you now
Take a step and push away

You step on me
You take from me
You lean on me
Why don't you push away?

You step on me
You take from me
You lean on me
Why don't you push away?

You step on me
You take from me

You lean on me
Why don't you push away?

You step on me
You take from me
You lean on me
Why don't you push away?
