

Nero Argento "Trust"

Visit "[Trust](#)" on MotoLyrics.com

Remind me how you laid us down
For once just to seem real
Retrace every step on my ground
I need to trust your tears

Believe in what you say
See
Everything you make
What you feel

I know everything of you
Your secret lives inside of me
You broke every side of me

I tried to understand your dreams
I tried to trust your smiles
You did your best to make me scream
Replacing me with lies

Remember what I've said
Seen
Everything I've made
How I felt

I know the lie that saved your life
Let me save your life again
